- c. The rabbit was crying because its foot was trapped. The foot of the rabbit was trapped in a snare.
- d. Initially, Babu acted very bravely and confidently when he reached the dentist's office. His confidence was badly shaken after watching the nurse carry the scary-looking equipment inside the doctor's cabin. He admitted lying about a toothache and wanted to quickly leave.

Q15. (Sample Answer) If I were the doctor of the story "The first Patient", I would have initially tried to open the instrument cabinet for sure. I wouldn't want my patients to leave without getting the treatment. But I would have informed my patients that the instrument cabinet was stuck. I would have given them another date and time at which they could get their appointment. Alternatively, I would have immediately called a key maker and ended the whole chaos.
