GRADE IX- ACADEMIC ADVISORY REGARDING INTERIM TEXTBOOK ARRANGEMENTS

Dear Parent Greetings!

As we commence the new academic session, we would like to inform you that the **NCERT textbooks for Grade IX are currently under development and are awaited from the concerned authorities.**

In light of the revised curriculum and recent academic changes, there may be a slight delay in the availability of the prescribed textbooks. However, to ensure that the academic progress of students continues without interruption, we request you to arrange the following reference books, which are well aligned with the latest syllabus and learning objectives of the following subjects.

These books have been carefully recommended considering their conceptual clarity, chapter-wise coverage, and practice-based approach, which will help students build a strong understanding of the subjects until the NCERT books are received.

Recommended Reference Books:

- **Mathematics: *M.L. Aggarwal***
This publication offers clear explanations, concept-based exercises, and ample practice questions that support logical reasoning and problem-solving skills which is well aligned with the revised curriculum.as shared by CBSE.
- **Science: *Goyal Brothers Publications***
This is recommended for its structured content, simplified explanations, and syllabus-oriented exercises across Physics, Chemistry, and Biology which is in proper sync with the new prescribed syllabus of CBSE.
- **Social Science: *Goyal Publications***
This is suggested for its comprehensive chapter coverage, lucid language, and close alignment with the latest curriculum.

We request you to kindly arrange these books at the earliest so that students may continue their studies smoothly and without any academic disruption. In cases where students were told to download the pdf of the content, there were instances of lack of clarity .This advisory is shared in close connect with all recent CBSE circulars till date.

The school will keep you informed as soon as the NCERT textbooks become available. We appreciate your cooperation and continued support.

Warm regards

Suvarna Paliwal
