

GRADE-VI SEPTEMBER PLANNER

September marks a significant phase of focused learning, thoughtful revision, and academic assessment. As students progress towards their examinations, the month will provide valuable opportunities to reinforce concepts, strengthen understanding, and reflect upon their learning journey. The examinations will be conducted during this month, enabling students to demonstrate their knowledge, skills, and progress. This crucial period will nurture values of discipline, perseverance, responsibility, and self-belief, encouraging learners to approach every challenge with confidence and determination.

Through structured revision, regular practice, assessments, and meaningful doubt-clearing sessions, students will consolidate their learning and enhance their examination readiness. Emphasis will be laid on effective time management, accuracy, organised preparation, and confident presentation. May this month inspire every learner to stay focused, work with sincerity, embrace challenges positively, and strive for excellence while giving their very best.
